bluesign®

Be part of the sustainability movement.

Get involved in environmentally friendly and safe textile production.

Bluesign is a globally operating company with its headquarters in St. Gallen, Switzerland. We offer solutions for textile and related industries to produce safe and environmentally friendly products. Our customers include major international brands, chemical suppliers, and textile manufacturers. Our employees are motivated professionals, focused specialists – and you!

To strengthen our team at bluesign® ACADEMY in Augsburg, Germany we are looking for a:

Chemist with experience in the textile supply chain (f/m/d)

Job Description

You will have the opportunity to support the ACADEMY team to fulfill its many different tasks.

The main task of bluesign® ACADEMY is to generate and to disseminate knowledge. The excellence of bluesign® ACADEMY is focussed on textile chemistry & processes, consumer safety, environmental protection, occupational health and safety, resource efficiency, RSL management and regulatory aspects (including REACh, GHS).

Our service is: development of bluesign® CRITERIA, troubleshooting for our customers, generating expert reports and studies, educational services (speeches, seminars, workshops), networking with interested parties.

Major Responsibilities

- Research on topics related to textile chemistry, RSL substances, sustainability, consumer safety, environmental affairs and the bluesign® SYSTEM. Independent generation of white papers regarding these topics
- Independent assessment of emerging topics
- Organization and conducting of training sessions for bluesign employees and customers
- Preparation and execution of internal and external presentations
- Consulting internal and external customers
- Further development of the bluesign® CRITERIA

Qualifications

- Profound educational background in chemistry
- Professional experience in textile supply chain, consumer safety or environmental affairs
- Fluent in English and German, both written and spoken
- Experience in and respect for working across different countries, cultures and languages

Personal Skills

- Desire for life-long learning, being conscientious and well organized
- Team player with proven ability to work independently
- Ability to explain complex issues in a comprehensible way
- Broad knowledge, fast familiarization in new areas
- Seeking to make the world a better place

What's in it for you

- A diversified and interdisciplinary role within a team driven by science and innovation
- Be a part of an internationally driven organization with a purpose that will broaden your horizon

Interested? Send us your application and corresponding documents, your earliest possible start date, and your salary expectations by applying through the following link: <https://smrtr.io/4rScx>

We look forward to getting to know you.
